

Vikings, Become the Legend

The **Anglo-Welsh Wars Expansion** includes the **Purple Frykat Clan**. It requires the Vikings Core Set to play, increases the number of possible players by 1, and may be combined with any other Expansion Set for a recommended 1 to 5 players. End Game remains the same.

The Anglo-Welsh Wars feature the struggle between the Saxons and Welch during the Viking Age. In this period, there were some significant gains made by the Welch peoples, most notably into Gloucester where many of inhabitants were Welch. This Welch increase in power temporarily changed the strength and distribution of the Welch and Saxon peoples.

Set-Up

1. Replace the Red Gloucester Card with the Orange one.
2. Place the Board Edge Cover over "Gloucester" so that it is now "Orange"
3. Place the Grey Long Fort and Round Fort on the game board *Gloucester* location to represent Welch success in the wars. For the remainder of the game this location is considered Welch.
4. The Round Fort and Long Fort Cards should be placed under the Gloucester Village Card as usual.
